

Hoplite Power, Inc. Announces Regulation Crowdfunding Private Placement Offering

LONG ISLAND CITY, NEW YORK (July 18, 2019)—[Hoplite Power](#), a client of the Clean Energy Business Incubator Program (CEBIP) at Stony Brook University, is pleased to announce the launch of a private placement offering in accordance with Regulation Crowdfunding (Reg. CF) adopted by the U.S. Securities and Exchange Commission (SEC) through MicroVentures.

This crowdfunding offering is selling Crowd Notes to raise maximum offering proceeds of \$107,000 with a minimum investment of \$100. We currently anticipate closing this offering on September 16, 2019.

More information on this offering can be found at: <https://mv1.vc/hppr2>.

About Hoplite Power, Inc.:

Hoplite Power (Hoplite or the “Company”) was founded in late 2014 as an on-demand smartphone charging network geared towards high traffic settings such as sports stadiums, large venues, and events. Hoplite designs, manufactures, and operates autonomous vending kiosks, called Hoplite Hubs, that distribute universal, external smartphone chargers, which are known as Hoplites. Hoplites are rented directly from Hoplite Hubs and are compatible with all iPhone and Android devices. The Hubs have been engineered to dispense, reaccept, and recharge Hoplites automatically. Hoplites charge phones up to 100 percent in 90 minutes and provide 1.5 times charge capacity, and they can be returned to any location in the Hoplite Power charging network.

About MicroVenture Marketplace, Inc.:

MicroVenture Marketplace (MicroVentures) is a registered broker/dealer and member of FINRA and SIPC. MicroVentures offers the sale of private placements in early and late stage companies in various industries, facilitates secondary transactions in private companies, and serves as a crowdfunding intermediary in accordance with Regulation CF. Please visit <https://microventures.com> for more information.

About the Clean Energy Business Incubator Program at Stony Brook University:

Funded by the New York State Energy Research and Development Agency (NYSERDA), the Clean Energy Business Incubator Program (CEBIP) at Stony Brook University has been in operation since October 2011 providing assistance and resources for developers of renewable and clean-energy technologies. Through the expertise, business acumen and technological resources of CEBIP’s management team, advisory board, researchers at Stony Brook University and other extensive partnerships, CEBIP helps bridge the gap between innovation and market with a full commitment to helping entrepreneurs develop and commercialize clean-energy technology. CEBIP provides resources for clean-energy innovators that include mentorship at various stages of entrepreneurial development, guidance for business and strategic plans, and assistance in preparing for and locating funding opportunities. CEBIP’s goal is to develop a successful clean-energy economy on Long Island, creating high-paying “cleantech” jobs and industry within Long Island and New York State.
